Summary

I am a solutions-driven full-stack software engineer with a strong inclination for intuitive functionality and design. My experience as a property management maintenance tech has sharpened my troubleshooting skills and enhanced my ability to approach problems methodically. The hands-on experience of diagnosing and resolving complex maintenance issues has cultivated a keen eye for detail and a pragmatic approach to problem-solving, which I bring to my software development work.

Skills

Software Engineering | Typescript, React, Next.js, Node,js, Postgres, Mongoose, Redux.js, HTML, CSS, TailwindCSS, Python

Tools | Git, AWS, Trello, Postman, Figma,

Project Skills | Troubleshooting, Attention to Detail, Adaptability, Communication

Professional Experience

Software Engineer, Fellow | General Assembly   Apr 2024
Completed a full stack development program, where I gained proficiency in a diverse range of programming languages, technologies, and frameworks crucial for full-stack web development. Focused on building highly functional and professional applications.

> **Projects:**
> **Full Stack Web Developer** | SureLock | https://surelock-password-app-fcf68c8b901a.herokuapp.com/ | Jul - Aug 2024
> **Technology:** Python, Django, Postgres
> SureLock is a secure password manager featuring advanced encryption, ensuring your sensitive information remains protected and easily accessible whenever you need it. Focused on using class-based views to integrate databases with protected passwords.
> - Created database integration
> - Increased encryption of password entries.
> - Designed intuitive password lists page.
>
> **Full Stack Developer** | Chatter | https://chatchatter.netlify.app/ | Jun - Jul 2024
> **Technology:** React, Node.js, Express, MongoDB, TailwindCSS
> Created a chat app utilizing websockets, Allows users to join chat rooms and send messages.
> - Integrated websocket pings with both frontend and backend.
> - Created a backend that stores user information and chats.
> - Designed user chat rooms
>
> **Full Stack Developer** | WalletWise | https://monthly-expense-tracker-2324e228fac8.herokuapp.com/ | May - Jun 2024
> **Technology:** Javascript, Node.js, Express, Mongoose
> Facilitated the creation of a financial tracker that highlights categories of high monthly spending.
> - Created functionality for creating, viewing, editing, and deleting expenses.
> - Utilized Node.js and Express to interact with MongoDB for expense storage.
> - Designed login UI and expenses list page.

Assistant Maintenance Manager | BH Management | Denton, TX
February 2022– March 2024
Role Description: Overseeing troubleshooting and maintenance of apartment living units, including AC systems and general issue handling.
- Promoted to manager based on exemplary performance of Service Technician role.
- Repaired complex HVAC components, such as the compressor/condenser.
- Identified problems with building moisture issues, and led a team to troubleshoot sources of leaks.
